

SARASOTA

— AND HER ISLANDS —

Holy Mackerel!

There are lots of Spanish Mackerel that have moved into our passes. The big Trout on the grass flats have been cooperating very well. The slow tides in the morning and late afternoon, around the rocks and bridges have been yielding good catches of Sheepshead and Snapper. There are lots of snowbirds here and we're on the water a lot. Call and get your trips booked early so you can get the date you're looking for. The King Mackerel will be here very soon.
